CHRISTMAS COMES EARLY AND IT' A HOT ONE

A Christmas thanks goes out to Simon Morgan this month for his generous customised gift given to all the club members. The one off chilli sauce gift is labelled "Long Cross" and is 30,000-50,000 on the Scoville scale. In 1912 an American chemist by the name of Wilbur Scoville devised an Organoleptic heat test. The Long cross sauce is two chillies and made with Cayenne chillies. The editor was given an extra gift named "FATAL II" 5 chillies extreme. Not tasted as of yet.
